

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US03/27038

A. CLASSIFICATION OF SUBJECT MATTER

IPC(7) : A61K 38/00, 38/17

US CL : 514/12

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

U.S. : 514/12

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)
Dialog, Pubmed, EAST**C. DOCUMENTS CONSIDERED TO BE RELEVANT**

| Category * | Citation of document, with indication, where appropriate, of the relevant passages | Relevant to claim No. |
|------------|--|--|
| X | Haynes et al. 1999. Peptides 20:1099-1105. The reference teaches administration of orexin (synonym for hypocretin) is sufficient to induce wheel running. | 1, 4 - 6, 14 - 19, 21, 25, 27 - 30, 36 |
| X | Taheri S et al. 2001. Clinical Science (London) 101(2):17p. See abstract. The reference teaches administration of orexin (synonym for hypocretin) is sufficient to induce wheel running. | 1,6,14-19,21,25,27-30, 36 |
| A | Preti 2002. Current Opinion in Investigational Drugs 3:1199-1206. The reference teaches that hypocretins and orexins are identical, and that they increase feeding and thus would be expected to increase body weight. Claims are drawn to reduction of body weight by administration of the compounds, specification does not show reduction of weight. | 1-36 |

☐ Further documents are listed in the continuation of Box C.☐ See patent family annex.

|--|------|--|
| *. Special categories of cited documents: | "T " | later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention |
| "A " document defining the general state of the art which is not considered to be of particular relevance | "X " | document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone |
| "E " earlier application or patent published on or after the international filing date | "Y " | document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art |
| "L " document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) | "& " | document member of the same patent family |
| "O " document referring to an oral disclosure, use, exhibition or other means | | |
| "P " document published prior to the international filing date but later than the priority date claimed | | |

Date of the actual completion of the international search

01 December 2005 (01.12.2005)

Date of mailing of the international search report

24 JAN 2006
